

Diverse Inspection Services Across the LNG Spectrum

50+ NDT Offerings

LNG facilities due to configuration, service, as well as production schedules pose unique challenges for inspection and heat treatment services. NVI's core toolbox of traditional as well as advanced NDT services ensures all inspections can take place coordinated through a single provider – the most efficient solution for complex schedules and entry requirements.

LNG Geographic Superiority

Based on the Gulf Coast, NVI's primary team of technicians is likely situated near your upcoming project. Boasting 11 locations along the Gulf Coast, NVI offers unparalleled local resources in terms of swift response, expertise, and cutting-edge service capabilities. The entire Quality Assurance, Executive, and Operational Support Team is conveniently located in Gray, Louisiana.

Experience

Unmatched inspection experience in cold box fabrication, modular fabrication, pipelines, as well as on-site construction, installation, and post commissioning asset integrity inspections. NVI has performed services on the largest LNG construction projects in the world and continues to support owner/operators as a valuable local resource for their ongoing inspection needs.

Applications

Our unique, project-centric approach, ensures that your inspection program is aligned with your timeline and expectations. Inspectors are trained prior to and during ongoing project changes where timely execution is paramount. We understand the challenges of large-scale construction and ongoing inspection programs at commissioned facilities. Through the use of its proprietary, Android-based, NVision field management system, NVI provides complete real time transparency in their progress timelines. NVision will alert clients to unforeseen obstacles as well as suggest value added items for best practices related to its asset life cycle.
